# *FOREWORD*

In this "All Canada" Exhibition an effort has been made to show where Canada stands in art; to present, as far as space permits, the artistic activity of the Dominion and to give representation to as many as possible.

Included with the work from almost all the provinces, are a few pictures of deceased painters, in order to give in tabloid form, so to speak, something of the artistic background. The limitation of space did not permit an exhibition which would disclose the evolution of our art—the gradual casting aside of the traditions of older lands until the present day when the artist gets his impulse from his native environment only. It is this quality—this sincere effort to represent our own life and time—which is attracting attention outside of our own boundaries.

The Committee desires to sincerely thank those friends who have so kindly loaned pictures and especially the Quebec Government for its wholehearted support of this undertaking.
